2209	08 DEC 2012	III	CLOVIS	EMT-B/I

BLS/ILS Test Sites:

You have nine (9) months from the date on your EMT Course Completion Certificate to complete your initial state licensing examination. You have to complete the entire testing process within two (2) years, if necessary, to obtain your NM state EMT license. Failure to complete your state examination within two (2) years will require you to take the entire EMT course over before you can re-apply for a state licensure.

There will be no processing deadline for each test site. When the site is filled, it will be closed and applicants will be scheduled for the next available site.

National Registry EMT-P Test Sites:

Please see the National Registry website www.nremt.org for testing requirements and expiration dates. If less than 10 candidates apply, the test site will be cancelled.

SEE BACK OF PAGE PLEASE

Initial Request: - EMT Basic/EMT-Intermediate: If you are applying for a State Test Site, please include the following information with your “Request for Testing Application” (can be obtained from our website under initial licensing)
